APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application and do hereby grant same, subject to the following limitations and conditions:-

This permit to change the points of diversion and place of use of the waters of Quinn River and its Tributaries is granted with the understanding that no prior rights will be affected by the change proposed herein. It is further understood that the quantity of water to be changed is limited to that amount of water which McDermitt Creek contributes to the stream system under the priorities to be changed, and the final water right allowed under the change will be dependent upon that amount of water placed to a beneficial use. This permit is also subject to any agreement relating to the division of waters of McDermitt Creek between the appropriators having decreed rights therein.

Actual construction work shall begin on or before March 1, 1940.

Proof of Commencement of Work shall be filed before April 1, 1940.

Work must be prosecuted with reasonable diligence and be completed on or before March 1, 1943.

Proof of Completion of Work shall be filed before April 1, 1943.

Application of water to Beneficial use shall be made on or before March 1, 1947. Proof of Application of Water to Beneficial Use with cultural map must be filed with the State Engineer on or before April 1, 1947.
